## Temple Services Information Management System (TSIMS)

Samnvya: The Information Management System is MCA registered company that offers various web-applications. In the same series, we realized the need for the digitalization of temples in the present era. Live Darshan and Dynamic Website is very important for any temple to reach out of the devotees to their God. This helps to spread the glory of the temple among the millions of people and real-time two-way connectivity, which is not limited to the city but to the country and all over the world. Here, we are offering the temple website, live darshan facility on the website, program updations, e-donation, etc.

### Online Services Offered:

- ✚ Design of Temple website as per our standard template
- ✚ Maintenance of the website with regular updates
- ✚ Hosting of the website
- ✚ Real-time posting of live events on the website including daily Arti and Functions
- ✚ Raise funds from Devotees via seamless online payment integration

### Key Benefits:

- ✚ Increase in the connectivity of the people to the temple
- ✚ The popularization of the events and functions of the temple
- ✚ Promotion of the temple around the world "Connect to the world"
- ✚ Facility to receive donations via online mode

### Salient Features

- ✚ All the future up-gradations are free to the end-users
- ✚ Cloud-based backup and general system maintenance
- ✚ System transparency, flexibility, and user-friendliness
- ✚ Different modules designed and combined under a single application
- ✚ No special supplements required to run this web application
- ✚ Artificially Intelligent System
- ✚ Right Information at the Right Place and at the Right Time
